Investing involves market risk, including possible loss of principal. Not investing for retirement carries risks, too. While Nationwide Retirement Specialists cannot offer investment, tax or legal advice, they will gladly discuss with the risks you may face and strategies that may help you deal with them through participation in the State of Arizona Deferred Compensation Plan.

Just as there's no guarantee that any physical fitness program will get you in shape, there's no guarantee that any investment program will "pump up your assets" for retirement. But you have a better chance of success, if you have a strategy. And that's where coming to our Financial Fitness Expo can help!
